

Testimonials

Amy & Jeff, Lake Mary, Florida

We have received nothing but compliments on our ceremony. Cheri understood that our special moment was about our love, our families, and our friends. She incorporated our special moments with perfectly paired readings that helped our guests feel the love that we shared as a couple. A dear friend came to me after the wedding and stated that she had never been to a ceremony before where she felt love. Cheri knew what we wanted; she made our day exactly what we wanted it to be.

Robin & Lou, Orlando, Florida

Our ceremony was beautifully written, very romantic and included everything we wanted our guests to know about our story. Our guests raved about the service.

About Cheri

Being a Celebrant is a natural extension of my life's work as an educator, counselor, author and public speaker. I will create your personalized ceremony by listening to your story and ceremonial vision. My writing and speaking abilities will allow me to make your personalized ceremony come to life.

Dr. Erdman is a Celebrant certified by the Celebrant Institute.

Creating Meaningful Couples' Ceremonies

Are you looking for someone to officiate your wedding, commitment ceremony or vow renewal ceremony? You have come to the right place if . . .

- you describe yourself as “spiritual but not religious,” or if you are blending different faith and/or cultural backgrounds and the usual ceremonies are not a good fit;
- you want your special day to be reflective of your values and beliefs;
- you are searching for a ceremony with more heart, more meaning, more connection.

As a Certified Celebrant I have specialized training and years of experience to write and officiate ceremonies for couples.

Weddings & Commitment Ceremonies

Making a vow to another person either through marriage or a commitment ceremony is one of the biggest life-changing decisions you will make.

Regardless of the vision you hold for your special day -- large, small; formal or informal; multi-cultural, interfaith or secular -- choosing the right person to officiate is very important.

Since the ceremony is the heart of your day, you'll want to work with someone who will customize it by including your personal story and vows, ring vows, and cultural or unity rituals of your choosing.

With your help, I will create a Celebrant ceremony that honors your vision and gives voice to your story by highlighting themes and suggesting poetry, prose and music.

Whether you are on a beach, in a garden, a chapel, a hotel, indoors or out, the ceremony content will be designed just for you. No one else will ever have a ceremony like yours.

Vow Renewals

A vow renewal ceremony is a perfect way for couples who made their vows

years ago to commit themselves again publicly. As with other couples' ceremonies, I will work with you to create a vow renewal personalized to your vision. It can have elements of your original ceremony or be completely different.

Ceremony Options

Standard Ceremony is pre-written and used in weddings when the couple does not want personalization. The couple may write their own vows or choose vows from other provided sources. This option is for the budget-minded couple.

Celebrant Ceremony is an upgrade in service and has a higher fee from the above. It includes personalization created from a questionnaire; suggested unity rituals based on cultural, religious or traditional values; prose and poetry; vows written by the couple or chosen from provided sources; editing until ceremony is exactly to the couples specifications.
